Objective

Turkish Cogeneration Association, KOJENTÜRK is an Istanbul-based independent, non-governmental organization founded in 1998. KOJENTÜRK promotes cogeneration applications to sustain an efficient, environmental and secure energy ecosystem through industries.

Eurasia Cogeneration Conference is the Annual Power & Heat Summit of KOJENTURK. The objective of the Conference is to gather all cogeneration users and stakeholders in a unique platform to discuss opportunities and challenges of the sector with all aspects.

Why Eurasia?

KOJENTÜRK welcomes you to 4th Eurasia Cogeneration Conference. The event aims to gather cogeneration users and stakeholders in Türkiye where Asia meets Europe!

With its geographic dominance, Eurasia is the center of the global energy and manufacturing cosmos. Having a huge potential for energy consumers and being a fuel resource hub makes the region an important attraction point for global business cooperations of combined heat and power market.

As a gateway between continents, Turkish industries create massive business opportunities for the whole region in terms of industrial power generation.

Let's meet on 31st October 2024 in Istanbul.

Secure energy supply, today and tomorrow!

Attendance

Attendance at the conference will be in both **Venue** and **Online** formats.

Venue Attendance: Valid for a limited number of special guests by invitation letter only! Up to 200 invited cogeneration stakeholders are planned to attend the conference in the venue.

Online Attendance: Free for every sector professional. Conference panels will be broadcasted online, and simultaneous interpretation will allow the event to be viewed both in Turkish and English. 1000+ sector professionals are expected to view the conference online.

Register for the event at www.eurasiacogen.com

Strong Coverage

Conference panels cover different perspectives of stakeholders from different fields of the sector. Technology suppliers, government authorities, finance experts, investors, academicians and cogeneration users will be speaking on conference panels to shape the energy future. Take your place in!

- ◉ Industries
- ◉ EPCs
- ◉ Consultants
- ◉ Technology Providers
- ◉ Finance Institutions

- ◉ Energy Service Companies
- ◉ Governmental Authorities
- ◉ NGOs
- ◉ Academies
- ◉ Media

Highlighted Topics

Technology

- ☞ Decentralized Energy
- ☞ OEM Developments
- ☞ Hybrid Systems
- ☞ Energy Storage
- ☞ Digitalization

User Experience

- ☞ Supply Security
- ☞ Advantages of Cogen
- ☞ Best Practices
- ☞ How Can I Build a Cogen?
- ☞ O&M Advances

Legislation

- ☞ Carbon Tax
- ☞ Green Deal
- ☞ Cogen Incentives
- ☞ District Heating
- ☞ Heat Markets

Finance & Investment

- ☞ Financing Models
- ☞ Incentive Mechanisms
- ☞ Performance Contracting
- ☞ ESCO in Cogeneration

Agenda

Below panel times are based on Türkiye Time Zone (UTC +3)

9:00 AM Registration & Breakfast Buffet

10:00 AM Opening

10:40 AM Cogen User's Best Practices

11:55 AM Financing as Door Opener

12:45 AM Lunch

02:00 PM Legislation Drives Projects

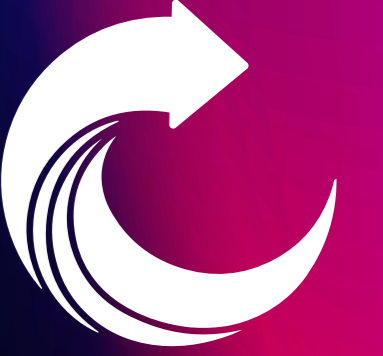

03:00 PM Innovations for Future of Cogeneration

04:15 PM Closing
