

Why Eurasia?

KOJENTÜRK welcomes you to 3rd Eurasia Cogeneration Conference. Event aims to leverage global cogeneration collaborations around Eurasia.

With its geographic dominance, Eurasia stands as the center for global energy and manufacturing cosmos. Not only having a huge potential of energy consumers but also being fuel resource hub makes the region an important attraction point for global business cooperations of combined heat and power market.

Being a gateway between continents, Turkish industries create massive business opportunities for industrial power generation.

Let's meet on 21st November 2023 in Istanbul.

Secure energy supply, today and tomorrow!
