Objective

Turkish Cogeneration Association, KOJENTÜRK is an Istanbul based independent, non-governmental organization founded in 1998. KOJENTÜRK focuses on promoting cogeneration applications in order to sustain an efficient, environmental and secure energy ecosystem through industries.

Eurasia Cogeneration Conference is the Annual Power&Heat Summit of KOJENTURK. The objective of the Conference is to gather all cogeneration stakeholders in a unique platform to discuss opportunities and challenges of the sector with all aspects.

* views from last year

Venue

After two years of online conferences, 2023 event will be conducted in physical format in order to welcome all stakeholders face to face in warmer way.

Throughout all Turkish industries, 200+ visitors are expected to participated in the event who are mainly cogen users or potential investors of cogeneration applications at their plants.

Simultaneous interpretation will enable to track the event both in Turkish and in English language. Conference panels will also be broadcasted online and will be available on KOJENTÜRK youtube channel to view anytime.

Why Eurasia?

KOJENTÜRK welcomes you to 3rd Eurasia Cogeneration Conference. Event aims to leverage global cogeneration collaborations around Eurasia.

With its geographic dominance, Eurasia stands as the center for global energy and manufacturing cosmos. Not only having a huge potential of energy consumers but also being fuel resource hub makes the region an important attraction point for global business cooperations of combined heat and power market.

Being a gateway between continents, Turkish industries create massive business opportunities for industrial power generation.

Let's meet on 21st November 2023 in Istanbul.

Secure energy supply, today and tomorrow!

Who will attend?

Sustainable and affordable energy supply is mandatory for industries. You are invited to learn more about increasing your plant's energy efficiency and secure your production. From operator level to executive; you will find the right network for energy driven operational excellence and environmental solutions including future trends.

- ☞ Decision Makers
- ☞ Executives
- ☞ Business Development Managers
- ☞ Procurement Responsible
- ☞ Engineers
- ☞ Academician and Students
- ☞ Operators

Strong Coverage

Eurasia Cogeneration Conference is a power&heat summit for all industries to leverage their energy potential in all aspects. Whether you are an equipment supplier, solution provider, financing institution, investor, academician or user on cogeneration applications; event brings all stakeholders of sector together to shape energy future. Take your place in!

- ☉ Industries
- ☉ Energy Investors
- ☉ IPPs
- ☉ EPCs
- ☉ Consultants
- ☉ Technology Providers

- ☉ Finance Institutions
- ☉ Energy Service Companies
- ☉ Governmental Authorities
- ☉ NGOs
- ☉ Academies
- ☉ Media

Highlighted Topics

Technology

- ☞ Decentralized Energy
- ☞ OEM Developments
- ☞ Hybrid Systems
- ☞ Energy Storage
- ☞ Decarbonization

User Experience

- ☞ Supply Security
- ☞ Advantages of Cogen
- ☞ Best Practices
- ☞ How Can I Build a Cogen?
- ☞ O&M Advances

Legislation

- ☞ Carbon Tax
- ☞ Green Deal
- ☞ Cogen Incentives
- ☞ District Heating Laws
- ☞ Heat Markets

Finance & Investment

- ☞ Financing Models
- ☞ Incentive Mechanisms
- ☞ Performance Contracting
- ☞ ESCO in Cogeneration

Agenda

Below panel times are based on Türkiye Time Zone (UTC +3)

9:00 AM Registration & Breakfast Buffet

10:00 AM Opening

10:40 AM Cogen User's Best Practices

11:55 AM Financing as Door Opener

12:45 AM Lunch

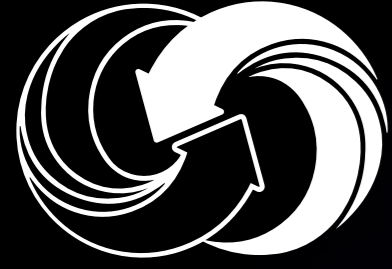

02:00 PM Legislation Drives Projects

03:00 PM Innovations for Future of Cogeneration

04:15 PM Closing
